Orientation Landscape

An American prohibition inspired Gangster theme, featuring bootlegging Elephants. The 'Don' is the ultimate boss and he will appear on the reels and give you a random symbol during the 'Scatter you can't refuse' bonus which can award up to 200 Free Spins. The Bootlegger's Run feature makes a Mystery Colossal Symbols appear, which can fill the entire reels for huge wins.

The Games Company

TGC is a UK based games studio successfully creating slot games for the UK and other markets for over 7 years.

TGC has an established RGS which is currently integrated into five aggregation platforms with further integrations to follow in 2020. The RGS has a Freespin promotion engine which is enabled for our partners and available to operators. Multiple currencies are supported; including crypto and many from Asian and Africa. Most games are available in 30+ languages.

There is a growing portfolio of games available with many live on a number of UK and European operators. All games are created in HTML5, with newer games available in both landscape and portrait mode. The current roadmap will see 40+ games available by Q3 2020 and further titles being rolled out.
